

Companion Puppy Profile

The following questions are being asked of you so that the right puppy and the right puppy placement can be made by bringing the various requirements of the puppy, breeder and buyer into prospective before a choice is made. I hope you agree that the animal's welfare must be the foremost consideration in choosing a placement.

Please note that all pups sold by us to be companions are sold under a pet contract with a spay/neuter clause and a Limited Registration. No breeding rights are being sold to our bloodline when purchasing a companion animal.

NOTE: We will not ship a puppy we would rather you come pick your puppy up. We want to meet the new owner and we want you to know who we are. When picked up, in person, by the buyer the contracts are signed, with copies for each party. If being paid for with a personal check all papers will be held for 14 days until the check has cleared the bank. There are no verbal sales agreements. We do have a health guarantee and warranty against terminal genetic issues in our contracts. Up to date de-worming, vaccinations, and micro chipping will be done by us before any puppy leaves our home to go to its new home.

Also be aware that we do not breed for color preferences, but for health and temperament, first and foremost. Color is the last thing being considered when we are choosing a breeding.
